
PERSONAL SUMMARY

Detail-oriented bilingual (English/Spanish) Software Engineer graduate with proven experience across hospitality, freelancing and full-stack development. Strong communication and leadership skills developed through client work, managerial roles and debate leagues. A confident team member with proven technical capabilities.

SKILLS & INTERESTS

Languages: English (Fluent), Spanish (Fluent), German (Basic)

Code Languages: JavaScript, TypeScript, Python, Java, SQL, Kotlin, HTML/CSS.

Frameworks: React, Django, Spring Boot, Thymeleaf, Jenkins, Poetry, Storybook.

Other: REST APIs, Unit Testing, Data Visualisation, Mobile Development, Git/GitLab CI/CD, Figma.

Hobbies: Extreme sports (Snowboarding/Surfing), Taekwondo, Padel Tennis and Flavour Craft.

PROJECTS

CHIL Research | Full-Stack Data Visualisation WebApp

January 2025 - April 2025

TypeScript, React, Django, MariaDB, Poetry, Git, Figma

- Developed a scalable dashboard to visualise climate impact data in a team of 5.
- Created RESTful APIs, React UI components, and technical documentation for maintainability.
- Delivered a modern UI with React.js, abiding by WCAG 2.1 and following client branding guidelines.
- Led design in Figma and developed high-fidelity prototypes.
- Led client presentations and meetings with Agile methodologies.

BipSync | Internal Onboarding System

April 2024 - May 2024

Springboot, ThymeLeaf, SQL, HTML, CSS

- Built a secure internal portal for onboarding workflows in a team of 4.
- Created account creation forms and editing features.
- Designed role-based access control and implemented JDBC for dynamic database interactions.
- Managed client communications and Sprint Reviews.

Additional Projects

- Java Monopoly Game: OOP, game logic, and testing.
 - Kotlin Event App: UI design and local data handling.
 - Hackathons, Discord/Spigot API bots and game modifications.
-

EXPERIENCE

Freelance | Full-Stack Web Developer

June 2025 - Present

- Designing, developing and deploying full-stack applications for clients.
- Onboarded clients, gathered requirements and led meetings.

CellarDoor | General Manager & Cocktail Bartender

October 2025 - June 2026

- Designed systems for a high-end venue, improving service efficiency by restructuring workflows.
- Analysed sales data to inform decision-making, including resource allocation and process improvements, resulting in increased revenue per customer and reduced operational bottlenecks.

BNKHSE LTD | Hospitality Supervisor

May 2024- June 2025

- Managed teams of up to 6 across three high-volume venues, supporting training and daily operations.
 - Streamlined onboarding and created digital SOP checklists to improve staff performance.
 - Contributed to the successful launch of two venues by designing staff workflows and schedules.
-

CERTIFICATIONS & ACHIEVEMENTS

World Robotic Olympics Regional Winner | Málaga, 2018

Three CICA National Debate Leagues | Madrid, *January 2020 - March 2021*

Wasteland Ski Rep Training | Manchester, *November 2023*

Diageo Bar Academy - On The Road Course | Cardiff, *May 2025*

EDUCATION

Bachelor's of Science in Applied Software Engineering

September 2022 - June 2025

Cardiff University

International Baccalaureate

September 2020 - June 2022

Spanish Language and Literature HL, English HL, Mathematics HL, Computer Science SL

Colegio Internacional Torrequebrada, Málaga
